

Investing in Women Changing the World

In Kenya, a group of mentees and mentors recently shared their testimony's about going through Tirzah's Emerging Leader Program (ELP). One of the testimony's that stood out was Mercy's.

The ELP Program at Tirzah is a vigorous colleg-level course that takes mentors and mentees through 10 very in-depth modules about being a leader in Christ. Many of the girls going into the program don't realize their own potential as a leader but end up discovering it along the way.

Mercy had some insightful things to say about the Emerging Leader Program. She writes,

"I will forever be indebted to Tirzah Emerging Leaders' Program because through this program I have been able to get so much insight and confidence. Through the spirit led mentors, I am now able to acknowledge that leadership comes from God and He can sustain you in the position He has given to you. God equips those He calls, and this really encourages young leaders like me."

Not only do the mentees learn about Godly leadership, but they also engage in developing other skills, such as effective communication, problem solving, decision making and strategic thinking. The program also empowers these women with the reality of how God views them. Mercy writes, **"[The Emerging leader Program] has been able to help me overcome self-doubt, develop a positive self-image and to believe in my abilities to lead and make a difference."**

Through this initiative, women feel empowered to be Godly leaders in their own communities to fight injustice, care for those in need, and uplift those around them.

"I am able now to take on challenges, set ambitious goals and pursue my aspirations."
- Mercy
